LOCAL AND MISCELLANEOUS.

Rally! Rally!!

A Mass Meeting will be held at Freeman's Hall, or some other place should that prove too straight, as it probably will, on Saturday Evening. L. S. SHERMAN and Col. A. S. HALL, will speak to the assembly of the needs of the country. Shall not the time not be proportioned to the importance of the occasion.

Mass Meeting!

In pursuance of a call of the Union State Central Committee issued on the 22d day of June 1862, all citizens of Ashtabula Co., embraced in said call, are requested to assemble in Mass Meeting at Jefferson, on the 16th day of August, A. D. 1862, at 1 o'clock, P. M. to elect delegates to attend the State Convention to be held at Columbus on the 21st day of August, 1862, to nominate one Supreme Judge, one Attorney General, one Secretary of State, a School Commissioner, and Member of the Board of Public Works. A general attendance is requested.

Jefferson, July 30th, 1862. D. CADWELL, Chairman of County Central Com.

EDITOR—We were gratified to notice in your last issue, the announcement of the name of Hon. D. CADWELL, as a candidate for Congress. Mr. C. has performed as much, or more labor in this county, in the political field, for the last fifteen years, than any other man, and in our judgment is the very man for the place.

MANY CITIZENS.

STABINO—Late on Saturday night last, as Mr. Gilbert, a runner for the Fisk House, was either talking with, or passing Mrs. Wiseman, the proprietor of a diminutive hotel of unquestionable fame, near the depot, on the side-walk near the residence of Dr. McDonald, was struck, as the story runs, with a knife, severing an artery and bleeding so as to leave a trail along the walk. What the provocation was, we are not told. Probably the parties understood it. This affair having culminated the lady's fame upon this field, her friends will be sorry to learn that she contemplates a removal to a new field of operation. Although Eric holds out a promise of refuge to this migratory class of citizens, we shall be disappointed if they do not find by sad experience, the truth of the old adage, that the way of the transgressor is hard.

SENATOR WADE is spending the congressional recess with his brother-in-law Judge Parsons in this village. The health of the Senator is not well established, but quiet, and relief from the burdens of public duties will no doubt restore it to its usual tone.

NEW GROCERY ESTABLISHMENT.—Mr. H. H. HALL, formerly a resident of East Village, has, as he informs us, taken the unoccupied store in Fisk Block, where in a few days he will open a new and superb stock of family groceries, which he will be pleased to show to our citizens, in the hope of opening with them satisfactory and advantageous business relations. He will be heard for himself through our columns next week.

PLEASURE TRIP.—The People's Line of Propellers, running between Buffalo and Chicago, are nine in number, and four of that number—the Empire State, Onondaga, Badger State, and Buffalo, are large, new and beautiful specimens of marine architecture, and offer the finest accommodations for passenger travel. They stop at intermediate ports, and take passengers from Cleveland the full round trip to Chicago and back to Buffalo, giving a day or two at the Falls, and landing again at the point of embarkation, occupying fourteen days, and all at the mere nominal expense of \$14, or \$1 per day. A more agreeable and healthful excursion for the heated term, could hardly be hit upon, and none certainly at a cost so merely nominal. Some of our citizens have already availed themselves, we understand, of these advantages, and others are contemplating doing so. Our Painesville neighbors propose to make up a company for a trip of this kind, for the dispatch of freight to western ports. Inquiries by letter or otherwise, may be addressed to the gentlemanly agent at Cleveland: H. C. McDOWELL, Esq.

THE "S. F. B."—In several of the loyal States the Knights of the Golden Circle have changed their name twice to avoid exposure. They now call themselves the "Order of the S. F. B." or "Self-Protecting Brothers." The members are obliged, on penalty of death, to deny the existence of the organization, even in a court of justice; and the oath taken is to resist the prosecution of the war in every way.

There are a few of the Breckinridge, Secession sympathizing loaves, who are evidently flattered for prying conspiracy and rebellion, who are terribly excited by a casual allusion of ours to the "K. G. C." and are unable to restrain their hostility. Their manner betrays their sympathy, if not their complicity.

WASHINGTON, July 20, '62.

Mrs. WHEELER writes to Mrs. R. H. Conklin: "Your three barrels arrived last evening, and to-day— notwithstanding it is the Sabbath—I have been opening them and arranging their contents for distribution. I wish I could see you and your ladies to express to them verbally my thanks on behalf of our poor fellows. How I want to tell you how much everything these barrels contain is needed, and how much they add to their comfort, and how grateful they are for every little act of kindness tendered them. Every one receiving of your bounty shall know from whom these things come. Thank every kind lady for me, in behalf of the sick and wounded soldiers, for their kind donations. I am so happy to have the blessed privilege of acting as your almoner, for I feel that I can do so much good! I have sighed many a time for something more to do for these brave noble fellows beyond what my limited purse would admit, and a kind Providence has heeded my prayer. I have the distribution of a large box for the soldiers, from the ladies of Ashtaburg, and also a dollar in money for the purchase of little comforts not supplied by the government. Your letter containing four dollars was also duly received and will be expended for articles for the comfort of the needy soldiers. Oh, it is such a god-send. The Ladies Aid Society of Jefferson sent me \$100 in money requesting

me to use it as needed for Ohio men. It makes me grateful to have it in my power to comfort so many. The Jefferson ladies likewise have forwarded a box of clothing which will reach me this week.

I took some 50 pairs of sheets and pillow cases to the Chittenden hospital yesterday, and found nearly all lying on bare rough ticks, and the change was very refreshing to them, but I had not enough for one-quarter. To-morrow I shall go again with more.

As the hour for making up finds us in the midst of this letter, the reader will pardon us for closing—ad.

G. W. NELSON, Dentist, will be in his rooms at the Fisk House, on Monday, on Monday, August 4th, and remain during the week.

Dr. S. G. CLARK, Physician and Surgeon, can be consulted at the Fisk House, Wednesday, August 6th, see adv.

KINNEY'S BATTERY.

Or as it has now become Southwick's. Lt. D. K. Southwick, since Capt. K's retirement having as we learn with pleasure, succeeded to the command, was at last accounts at Tusculum, Alabama. They broke camp on Sunday, June 22d, marching until 11 P. M. On Monday, at 5 A. M. they were again in motion. Long before noon the infantry gave out from the intensity of the heat, and the absence of everything like water, except the green-coated stagnant swamp-pools. Luka Springs, our young friend Paulus, writes, is a beautiful town, with—before the war—a population of 2000, on the Memphis and Charleston R.R. afforded plenty of good water. It has three splendid hotels, which are converted into Union hospitals. A great many families left on our approach, but are returning now. When Southwick rejoined here, four was \$27 per barrel, now it is down as low as \$5, and everything else in proportion. This town furnished the rebel army some 800 soldiers, but more than half are home now, having taken French leave. So it is everywhere we have yet been. For the last week or two we have been living on Blackberries, which are very abundant. Peaches are plenty, but not quite ripe, apples are very scarce.

Our destination is thought to be East Tennessee, this afternoon we start for Tusculum, Ala., which is about 25 miles from here, through a fine farming country. I have seen very little cotton, corn is the main crop.

I was in hopes that it would all be at home by the 4th of July, but it looks rather dubious now.

Tusculum, as we learn under date of July 3d, is another beautiful place, and something of a business town. The Chattanooga & Memphis R.R. make connection here. Water privileges are very good. Camp rumors report that we are to stay here some time, which I hope is true. The health of the company is very good, but 2 out of 120 are on the sick list. We celebrate tomorrow by firing 32 guns. Weather is very warm.

TUSCULUM, ALA., July 22d, 1862.

MR. REED—Gen. Thomas' division is badly cut up, guarding the Railroad between here and Corinth. One brigade has gone to Huntsville, in this state. We also leave next Friday for the same place. Part of two brigades, 4th U. S. Regulars, and our Battery are here. Our officers have fears of an attack, before we leave.

Lt. Southwick has taken temporary command of the Battery, and undoubtedly will have permanent, he is well liked by both officers and men, under him, and he will make a good officer. Some promotions will be made in a few days, which I will give you.

DELICACIES.—One of the special delicacies of modern times may be accounted Speer's Sambucus Wine, which combines with rare purity and clarity of flavor, the good qualities of port and claret, it is neither insipid nor bitter, but hits the happy medium most to be desired in a constant beverage or in a drink for the sick. For invalids it is invaluable by virtue of its tonic qualities, and particularly its absolute freedom from all adulteration. Actual trial will show that the Sambucus Wine has excellence of its own, unrivaled by any other wine in the market.

NEW YORK.

A correspondent of the Siecle Paris, the government organ of France, writes from Tunis, Algeria, as follows:

"Our College of philosophers at home, may, and probably do accomplish a great deal for the cause of science, but the Americans are the people to turn these discoveries to practical account. Many of the modern inventions in our country are American, and one American chemist, Dr. J. C. Ayer of Lowell, supplies much of the medicinal consumed in this country. His Cherry Pectoral, Pills, Sarsaparilla and Ague Cure constitute the staple remedies here, because they are of easy application, sure in their results, and have the confidence of the people. While the science of Medicine is carried to a higher perfection in our own country (France) than any other, it strikes a Frenchman as a little singular that an American Physician should furnish the medical relief and remedies for our Principal Province.

SPECIAL NOTICES.

Dental Notice.—At the solicitation of a few patrons in Ashtabula, I have engaged rooms at the Fisk House, and will be there on Monday, the 26th day of June, to remain one week, and on the first Monday in each month thereafter, to remain one week at each place.

PHASE POETRY.

Let children boast of deeds in war

And minstrels sing their sweet guitar,

In praise of Lincoln's matchless Pils.

Their deeds are found in every land—

And Jesus' snows and Africa's sand

Their words work magic, the capers fill

Produced by Lincoln's matchless Pils.

Does disease afflict you do not doubt

This charming compound will search it out,

And health again your system fill.

If you do not see Lincoln's Pils.

They're safe for all—both old and young—

Their prices are on every tongue:

Disease, discomf, no longer kills,

Since we are blessed with Lincoln's Pils.

Put up with English, Spanish, German and French

directions. Price 25 cents per box. Agate Coated. Sold by

all dealers, merchants and grocers everywhere. 1862

SPER'S SAMBUCCI WINE.

OF CULTIVATED PORTUGAL FRUIT.

Every Family should use Speer's Sam-

bucci Wine—its medicinal and beneficial

qualities as a general Sanguifer, Tonic, Diuretic and

antidote, are highly attested by eminent physicians, and some of the

first families of Europe and America.

As a Diuretic it is a healthy action to the

kidneys, and it is a healthy action to the

liver, and it is a healthy action to the

stomach, and it is a healthy action to the

intestines, and it is a healthy action to the

lungs, and it is a healthy action to the

spinal cord, and it is a healthy action to the

muscles, and it is a healthy action to the

skin, and it is a healthy action to the

hair, and it is a healthy action to the

nails, and it is a healthy action to the

teeth, and it is a healthy action to the

bones, and it is a healthy action to the

joints, and it is a healthy action to the

ligaments, and it is a healthy action to the

tendons, and it is a healthy action to the

arteries, and it is a healthy action to the

veins, and it is a healthy action to the

capillaries, and it is a healthy action to the

circulation, and it is a healthy action to the

system, and it is a healthy action to the

body, and it is a healthy action to the

soul, and it is a healthy action to the
